

Updating to GoAdmin 3.3

Written by ProDialers

1. Append the goautodial-testing repo

```
# nano /etc/yum.repos.d/goautodial.repo
```

2. Update Vicidial to 2.7RC1

```
# yum -y update
```

Make sure to check the active version:

```
# cat /usr/src/vicidial/version
```

...and to change your MySQL password to your original password, if needed

```
# mysqladmin -pvicidialnow password "myoriginalpassword"
```

3. Update GOautodial-CE package

```
# yum -y update goautodial-ce --enablerepo goautodial-testing
```
