

Update all ViCiDial / GoAutoDial Passwords over SSH

Written by ProDialers

In order to change all phone and agent login passwords for ViCiDial / GoAutoDial over SSH, please use the following SQL query:

```
update vicidial_users set pass='password123',phone_pass='password123' where user_level=1;
```

```
update phones set conf_secret='password123',pass='password123' where 1;
```
