

How to export all leads from specific certain cities from the entire database / dialer

Written by ProDialers

```
SELECT first_name,last_name,address1,city,postal_code,phone_number FROM vicidial_list  
WHERE list_id in (select list_id from vicidial_lists) and city in ('X','Y','Z') INTO OUTFILE  
'/tmp/cities.csv' FIELDS TERMINATED BY ',' ENCLOSED BY '"' LINES TERMINATED BY '\n'
```
